Sri Lanka

TECHNICAL SKILLS

DATA & ANALYTICS

Python SQL Power BI
Pandas NumPy
Data Visualisation
Statistical Reasoning
Data Modelling

DATABASES

MySQL MS SQL Server
MongoDB NoSQL DB Design
Query Optimisation

LANGUAGES

Python Java Kotlin PHP
JavaScript C# SQL

FRAMEWORKS & TOOLS

Laravel Jetpack Compose
Flutter RESTful APIs
Git / GitHub Android Studio
Figma AWS (Foundational)
VS Code

CORE COMPETENCIES

- Analytical Thinking
- Problem Solving
- Data Interpretation Business-Oriented Decision Making Requirements Analysis
- Database Design
- Software Design
- Technical Documentation
- Team Collaboration
- Communication Skills
- Attention to Detail
- Adaptability & Continuous Learning

PROFESSIONAL PROFILE

Final-Year BSc (Hons) Computer Science undergraduate at Staffordshire University (APIIT Sri Lanka) with a strong interest in data analytics, data-driven decision making, database technologies, and software development. Possessing a solid academic foundation in decision analytics, database systems, predictive modelling concepts, business intelligence, and full-stack application development.

Experienced in applying analytical thinking, problem-solving, and software engineering principles through academic and project-based work involving data management, web technologies, mobile applications, and enterprise software development. Passionate about leveraging data and technology to generate actionable insights, improve operational efficiency, and support informed business decisions.

BSc (Hons) Computer Science

Staffordshire University, United Kingdom (APIIT Sri Lanka) 2024 Feb - Present

ACADEMIC FOCUS AREAS:

- Decision Analytics & Business Intelligence
- Data Analysis & Data-Driven Decision Making
- Data Structures and Algorithms
- Full-Stack Web Development
- Mobile Application Development
- Cyber Security Principles
- Agile Software Development
- Predictive Analytics Concepts
- Database Design & Data Management
- Object-Oriented Programming
- Enterprise Server-Side Development
- Cloud Technologies & Networking
- Systems Analysis & UML Modelling
- Research Methods & Emerging Technologies

RELEVANT MODULES

- Decision Analytics
- Server-Side Programming
- Databases & Data Structures
- Software Development & Application Modelling
- Final Year Project (Dissertation)
- Emerging Technologies
- Mobile Application Development
- Commercial Computing
- Networking Concepts & Cyber Security
- Web Development & Operating Systems
- Digital Technologies

Computing Foundation
APIIT Sri Lanka

2023 July- 2024 Feb

PROJECT PORTFOLIO

Selected academic and personal projects are available through LinkedIn and GitHub upon request.
